1. BACKGROUND

The Town of Minto maintains over 52 km of gravel roads and over 230 km of hard top roads using funds from its annual operating and capital budgets. The annual operating budget changes each year, but generally contains over \$180,000 for various asphalt and gravel projects. The operating budget also varies with the 2024 budget identifying over \$400,000 in potential gravel road maintenance work. By tendering maintenance gravel application in rural areas, the Town intends to maximize the extent of roadway work completed through the competitive bid process.

The Town at its sole discretion may re-allocate funds within its approved budget depending on need and the competitiveness of pricing obtained in its tendered work. If a maintenance gravel application tender contains particularly attractive pricing and the Town can obtain “best value” by applying the prices to additional work, funds may be shifted from other budget areas to complete more work. If maintenance gravel pricing is poor the Town may defer projects to other years and re-allocate funds for asphalt or gravel work to other areas if such a deferral results in “best value” to ratepayers.
